***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-22 (in part), drawn to compounds, compositions, and methods of treatment using formula I wherein A is CR<sub>7</sub>, classified in class 546, subclass 192+.
  - II. Claims 1-7, and 9-22 (in part), drawn to compounds, compositions, and methods of treatment using formula I wherein A is N, classified in class 544, subclasses 297, 298+ .
  - III. Claims 1-7, and 9-22 (in part), drawn to compounds, compositions, and methods of treatment using formula II wherein A is N, classified in class 544, subclass 280+ .
  - IV. Claims 1-7, and 9-22 (in part), drawn to compounds, compositions, and methods of treatment using formula II wherein A is CR<sub>7</sub>, classified in class 546, subclasses 112, 113+.

V. Claims 1-7, and 9-22 (in part), drawn to compounds, compositions, and methods of treatment using formula III wherein A is N, classified in class 544, subclasses 264, 265.

VI. Claims 1-7, and 9-22 (in part), drawn to compounds, compositions, and methods of treatment using formula I wherein A is CR<sub>7</sub>, classified in class 544, subclass 264, subclass 265, subclass 118. <sup>544</sup>

The inventions of groups I - VI differ from each other because each group is drawn to a ring system that is distinct and patentable over each other. Essentially, these are six independent inventions as compounds of one group can be utilized alone, and not in combination of those in other groups. Note, with a variable core such as formulae I, II, and III, the common property is not enough to keep six groups in the same Markush claim. Furthermore, a prior art that renders obvious one invention would not do so to the other. Thus, restriction for examination purpose as indicated is proper. However, should applicant traverse on the ground that the six groups are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the six groups to be obvious variant or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the invention unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Ms. Kristine Konstas on 2-6-02 to request an oral election to the above restriction requirement, but a written restriction is preferred.
3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
